About WLABM

The West Los Angeles Building Materials Family

West Los Angeles Building Materials, a family-owned and operated business, established in 1997, has one mission: to provide quality, affordable and reliable building materials and supplies to our community. To accomplish our goal, we search the country year after year to bring you the best building products the U.S. has to offer. To that end we haul lumber from the Northwest; buy bricks, blocks, cement and mortar from local manufacturers to ensure quality and reliability; and buy flagstone, quartzite and landscaping rock direct from quarries in Arizona, Idaho, Montana, Utah and Pennsylvania. So whether you live in Los Angeles, Orange County and now the South Bay, we want you to think of us as your community's building supply and flagstone specialists. With employees who have years of experience in the industry, let us help you with all of your building needs.

Thank You,

The Agüero Family

• Disclaimers •

Please, keep in mind that stone products may vary in color and patterns. Stone is natural product, created through thousands of years of heat and pressure, therefore resulting in a variation, making all stone products a one of a kind. Please allow for a 10% breakage on certain stones, veneers and panels.
