COURTYARD STONE

Courtyard Stone in Dark Gray-Pewter-Charcoal installed in a random ashlar pattern.

Available in both a standard and a tumbled texture, Courtyard Stone has the classic, indispensable look that offers a timeless appearance. Tumbled, it can add the depth and warmth reminiscent of a timeworn, cobbled pavement while the standard texture is classic and clean. Courtyard Stone accommodates any architectural style and is an appealing paving stone in both large and small spaces.

Stocked Colors:

Cream-Brown-Charcoal	Cream-TerraCotta-Brown

ESTATE COBBLE I & II

Estate Cobble II (tumbled) in Sand-Stone-Mocha installed in a stack bond pattern.

This four stone combination is a tumbled stone that can be laid in an ashlar pattern. Estate Cobble's wavy textured top, tumbled finish and larger size creates a beautiful and natural look. Its weathered surface and casual informality creates a quiet sophistication and is the perfect enhancement for your outdoor space.

Stocked Colors:

Cream-Brown-Charcoal	Cream-TerraCotta-Brown
Gray-Charcoal	Gray-Moss-Charcoal
Sand-Stone-Mocha	Tuscan

* Texture available in tumbled only.

PAVILION I & II

Pavilion I & II Adobe-Copper-Mocha installed in a random ashlar pattern. Border is Slate Stone 6x9 Cream-Brown-Charcoal installed in a soldier course.

1. Stepstones are Adobe-Copper-Mocha Pavilion II. 2. Adobe-Copper-Mocha Pavilion I & II installed in a random ashlar pattern. Pool coping is solid Mocha Bullnose. 3. Adobe-Copper-Mocha Pavilion I & II installed in a random ashlar pattern. The border is Slate Stone 6x9 in Sand-Stone-Mocha installed in a soldier course. 4. Pavilion I & II in Adobe-Copper-Mocha installed in a random ashlar pattern. Border is Slate 6x9 Cream-Brown-Charcoal in a soldier course.

Warm textures, unique colors and large paving stones are the hallmark of the Pavilion Stone. The rich surface of the Pavilion has the appearance of a large natural flagstone with all the benefits of high-strength manufactured concrete. Available in colors ranging from rich earth tones to a color reminiscent of natural Bluestone, the Pavilion is designed to enhance your outdoor living space. Ideal for entryways, walkways, backyard patios, pool decks and outdoor entertainment areas.

Note: Due to its large format, this paver is not intended for vehicular use.

Stocked Colors:

Sand-Copper-Stone	Adobe-Copper-Mocha

PORCELLANA

Entryway pavers are Porcellana 6" in Light Sand-Gray-Stone installed in a herringbone pattern. The pavers to the right and left of the entryway path are Porcellana 18" in Light Sand-Gray-Stone installed in a random ashlar pattern. The low wall in the foreground is 12" Bastione Wall Stone™ in Gray.

The new Porcellana paver collection from Angelus Paving Stones offers new sizes, colors and fine textures that mimic the look of porcelain. Made from high strength concrete and specially treated for a tight texture, Porcellana is the optimum choice for your outdoor hardscape project. The Porcellana 9" combination uses a 6x6, 6x9, 9x9 and 9x12 assortment to create a random ashlar pattern that is ideal for driveways. The Porcellana 18" uses a 9x18, 18x18, 18x27 shape combination that was created especially for pool decks and patios. Finally, the 6x9 shape is available for use as a border stone or can be used in a herringbone pattern in any residential application.

Notes: The Porcellana 18" is recommended for pedestrian applications only. The Porcellana 9" and 6x9 pavers can be used in driveway or pedestrian applications.

PERMEABLE SLATE

Sand-Stone-Mocha Permeable Slate installed in a random ashlar pattern.

1, 2 and 3. Sand-Stone-Mocha Permeable Slate installed in a random ashlar pattern.

The 80mm Permeable Slate concrete paver is an attractive permeable paver that mimics the look of cut flagstone. Installed in a random ashlar pattern, the Permeable Slate will provide years of durable, environmentally friendly performance for any residential or commercial application.

Stocked Color:

Gray-Charcoal

Sand-Stone-Mocha

Permeable Slate

4-Stone Package:
80mm
5.9" x 5.9", 5.9" x 8.9", 8.9" x 8.9", 8.9" x 11.9"
102 Sq Ft per pallet
240 stones per pallet

PERMEABLE COURTYARD

1. Permeable Courtyard in Tuscan (special order color) installed in a random ashlar pattern. **2.** Gray-Charcoal 80mm Permeable Courtyard installed in a random ashlar pattern. **3.** Permeable Courtyard in Tuscan (special order color) installed in a random ashlar pattern.

TURFSTONE

1. This Gray Turfstone is filled with artificial turf for a greenbelt appearance where reduced maintenance and water use is desired. **2.** Full grass growth has covered the Turfstone creating a strong surface for vehicles while protecting the grass roots. **3.** The grass has completely grown over the Turfstone to create a surface strong enough for vehicular use.

The Permeable Courtyard Paver is a welcome addition to the Angelus permeable paver line. It is an 80mm, four stone combination paver that is designed for residential and commercial permeable pavements. This ADA compliant permeable paver is a great option to reduce stormwater runoff and improve groundwater quality.

Permeable Courtyard

4-Stone Package:
80mm
5.9" x 5.9", 5.9" x 8.9", 8.9" x 8.9", 8.9" x 11.9"
102 Sq Ft per pallet
240 stones per pallet

Turfstone's grid pattern allows grass to grow while protecting the root system from compaction by vehicular traffic. It is ideal for greenbelts that require occasional vehicle use such as overflow parking and fire access lanes. Turfstone pavements with established grass reduces stormwater runoff and lowers the reflected temperatures associated with impenetrable surfaces.

BASTIONE WALL STONE™

Columns and Walls are 12" Bastione Wall Stone™ in Gray-Moss-Charcoal installed in a common bond pattern. Cap is Bastione Wall Stone™ Cap in Charcoal. Pavers are Courtyard Stone in Gray-Moss-Charcoal installed in a random ashlar pattern. Steps are Bullnose in Charcoal. Border is Courtyard 6x9 in Charcoal.

The Bastione Wall Stone™ family of retaining wall units is a remarkably versatile and appealing product from Angelus Paving Stones. It combines clean, modern lines with a wide range of applications and easy installation. Bastione Wall Stones™ can be used for 2' high retaining walls, columns, planter walls, BBQs, fire pits and free-standing walls. Angelus stocks this product in 10 different color blends plus 3 solid colors to create a wide range of design options that are readily available at either the Oxnard or Rialto plants.

Bastione Wall Stone™ is available in 3 different configurations plus a cap unit. First, the 3 piece Ashlar Bastione's appearance offers depth and variation and is used for low walls, fire pits, columns and planters. Second, the 24" Linear Bastione unit is an 8" x 4" x 24" long, smooth faced unit with a chamfered top and sides. The clean, modern look is perfectly crafted to create a contemporary retaining wall, seating wall or planter. Third, the 12" Column Bastione unit is designed with a solid top that can be used by itself for a uniform look on walls and planters, for columns and as a cap unit to either the 24" Bastione or 3 Piece Ashlar Bastione product lines. Finally, there is a 10" x 16" x 60mm Bastione Cap unit that is intended to be used either as a cap unit for the Bastione Walls, as a step tread or as a pool coping unit.

* Bastione Wall Stone™ Cap is available in solid colors only.

SHADOW AND LIGHT AFFECTS COLOR

Color — and the perception of color — is greatly affected by multiple factors. These photos of Sand-Stone-Mocha Courtyard Stone were all taken on the same day at the same property. When photographed before sunset and shortly after sunset, you can see how the light of day changes the color. It is this change in light, throughout the day, that creates beautiful variations of color. Consequently, photographic conditions, the time of day, the weather, the paver's texture and manufacturing conditions — even the quality of the printed page or website image — can all affect the perception of paver colors. And, because these conditions are variable, Angelus always recommends viewing physical samples prior to installation. Angelus Pavers & Walls. Beautiful in any light.

CALIFORNIA PROPOSITION 65 WARNING: Concrete masonry products (including concrete masonry units, interlocking concrete pavers and segmental retaining wall units) contain crystalline silica, which is known to the State of California to cause cancer. Mechanical processes such as dry saw cutting, chipping, drilling, or grinding of concrete masonry products may result in the release of dust containing respirable crystalline silica-quartz. Use the minimum respiratory and eye protection, NIOSH or MSHA approved, for control measures as specified in the Safety Data Sheet (SDS) for Concrete Masonry Products, Section VIII, provided by Angelus Block upon request. **FAILURE TO USE THE APPROPRIATE RESPIRATORY PROTECTION DURING PROLONGED EXPOSURE TO RESPIRABLE CRYSTALLINE QUARTZ MAY CAUSE DELAYED (CHRONIC) LUNG INJURY (SILICOSIS) AND HEAVY SHORT TERM EXPOSURE MAY CAUSE ACUTE OR RAPIDLY DEVELOPING SILICOSIS.**
